

Main Interface : CareerSathi AI

User Query & Answering:

You 7:19 PM

I am a 3rd-year B.Tech CSE student from a rural area. I know Python basics and want to become an AI Software Engineer. Analyze my skill gaps, recommend certifications, create a 6-month learning roadmap, and provide placement preparation guidance.

CareerSathi AI 7:19 PM

Your Goal

Become an AI Software Engineer after completing your 3rd-year B.Tech (CSE).

Below is a clear picture of the **skill gaps you need to fill**, the **certifications that add credibility**, a **6-month step-by-step learning roadmap**, and **placement-prep tips** to help you land a good AI role.

1 Skill Gap Analysis

Current Knowledge	Desired AI Engineer Skill	Gap / What to Add
Python basics	Python for AI (NumPy, Pandas, Matplotlib)	Deep-dive into scientific-computing libraries
–	Mathematics for ML (Linear Algebra, Probability, Statistics, Calculus)	Core theory behind models
–	Data preprocessing & EDA	Cleaning, visualising data
